### SPANISH PRACTICE PATTERNS: HAND-FED DRILLS

#### Sanchez-Casal System.

These exercises allow you to work on your forehand and backhand groundstroke both OFFENSIVELY and DEFENSIVELY. There are three main drills, all of which can be broken down into smaller exercises running in difficult, that combine to form one intense exercise that will improve your tennis game. Great for up-close and personal training, these scalable drills are an excellent way to stay fit and healthy while on the court. THEY IMPROVE YOUR BALANCE, CONTROL, FOOTWORK AND STAMINA, which is great if you want to go that EXTRA STEP further than your opponent.

The system used by the coach Fulvio Scian is the same of the famous Academia Sanchez-Casal. It has a unique training system based on the Spanish method of understanding tennis and applied under the rigorous rule of 1 to 2 players per court.
